

Watershed Management Plan for Big Creek - A Tributary of the Cuyahoga River

Prepared by

Fall 2009

This Big Creek Watershed Management Plan was Prepared by the Cuyahoga River Community Planning Organization under award NA07NOS4190076 from the National Oceanic and Atmospheric Administration, U.S. Department of Commerce through the Ohio Department of Natural Resources, Office of Coastal Management. The statements, findings, conclusions, and recommendations are those of the authors and do not necessarily reflect the views of the National Oceanic and Atmospheric Administration, Department of Commerce, Ohio Department of Natural Resources, or the Office of Coastal Management.

As a subcontractor, the Cuyahoga County Planning Commission compiled the Geographical Information System data and produced the maps for this project.

Watershed Management Plan for Big Creek – A Tributary of the Cuyahoga River

Table of Contents

1. Executive Summary	Page 1
2. Introduction	Page 18
3. Goals	Page 18
4. Project Scope	Page 19
5. The Balanced Growth Initiative (BGI)	Page 20
A. Key BGI Guidelines	Page 20
B. BGI Long-Term Interests	Page 20
6. Planning by Watersheds	Page 21
A. Watersheds	
B. Critical Watershed Features	Page 22
-Critical Soils	Page 22
-Steep Slopes	Page 22
-Floodplains	Page 24
-Riparian Areas	Page 24
-Primary Headwater Streams	Page 24
-Wetlands	Page 25
-Forest Cover	Page 25
C. Impervious Cover & Watershed Quality	Page 27
-Impervious Cover Model	Page 27
D. Watershed Restoration Practices	Page 30
7. Big Creek Watershed Characteristics	Page 32
A. Background	Page 32
B. Subwatersheds of Big Creek Watershed	Page 33
C. Community Boundaries of Big Creek Watershed	Page 34
D. Parks in Big Creek Watershed	Page 35
E. Demographics of Big Creek Watershed	Page 35
- Demographics by Census Block & Proximity to Public Parks	Page 37
F. Primary & Secondary School Systems in Big Creek Watershed	Page 39
G. Land Use in Big Creek Watershed	Page 41
H. Impervious Cover in Big Creek Watershed	Page 43
-Subwatershed Impervious Cover	Page 43
I. Water Quality and Biological Integrity	Page 46
-Use-Attainment in Big Creek	Page 46
-Water Quality in Big Creek Watershed	Page 46
-Biological Integrity Big Creek Watershed	Page 46
J. Major Management Issues in Big Creek Watershed	Page 48

8. Identification of Priority Conservation & Development/Redevelopment Areas	Page 49
-Overview of Methodology	Page 50
A. Step 1: Identify and Evaluate Community Issues and Desires	Page 50
B. Step 2: Priority Conservation Area Analysis	Page 51
-Step 2A: GIS Data Analysis & Qualitative Assignment of Big Creek's Natural Features to Reflect Community Needs & Watershed Function	Page 51
-GIS Analysis	Page 51
-Critical Soils in Big Creek watershed	Page 52
-Infiltration Rates	Page 53
-Hydric Classification	Page 53
-Soil Drainage Rate	Page 53
-Erodibility	Page 55
-Steep Slopes in Big Creek Watershed	Page 56
-Streams in Big Creek Watershed	Page 57
-Stream Order	Page 57
-Headwater Streams	Page 57
-Primary Headwater Streams	Page 57
-Riparian Areas & Wetlands in Big Creek Watershed	Page 59
-Forest Cover in Big Creek Watershed	Page 60
-Composite of Critical Natural Watershed Features	Page 61
-Step 2B: Identify Undeveloped & Developed Land with Relation to Natural Features	Page 62
C. Step 3: Priority Development / Redevelopment Area Analysis	Page 65
-GIS Data Analysis of Priority Development / Redevelopment Areas	Page 66
D. Step 4: Identify Priority Conservation & Development/Redevelopment Areas	Page 72
-Detailed Results – Priority Conservation Areas	Page 73
-Primary Conservation Areas –Top Large Tract in Each Subwatershed	Page 74
-Upper Big Creek Primary Conservation Area – Large Tract #17	Page 74
-East Branch Primary Conservation Area – Large Tract #33	Page 76
-Lower Big Creek Primary Conservation Area – Large Tract #63	Page 78
-West Branch Primary Conservation Area – Large Tract #73	Page 80
-East Branch & Stickney Creek PCA – Large Tract #54	Page 82
E. Step 5: Priority Stormwater Retrofit Areas	Page 84
-Objectives	Page 84
-Stormwater Retrofit – Large Parking Lots	Page 84
-Ex.#1- Parmatown Mall in Upper Big Creek Subwatershed	Page 88
-Ex.#2- Cleveland Metropark Zoo & Brookside Reservation	Page 89
-Ex.#3- Park-N-Fly in Brookpark and the Colleda Subwatershed	Page 90
-Stormwater Retrofit – Modify Existing Dry Basin	Page 91
-Ex.#1- City of Parma Dry Basin #12 –Upper Big Creek Subwtrshd	Page 93
-Ex.#2- City of Parma Dry Basin #13 –East Branch Subwatershed	Page 94
-Ex.#3- City of Brooklyn Dry Basin #33 –Lower Big Creek Subwtrshd	Page 95
-Stormwater Retrofit – New Storage Below Outfalls	Page 96
-Example #1- Outfall 27 & 28 at Big Creek Reservation	Page 99
-Example #2- Outfall 42 at Brookpark and Smith Roads	Page 99
-Example #3- Outfalls 40 & 41 at Big Creek Reservation	Page 101
Stormwater Retrofit – Storage at Highway Interchanges	Page 102
-Example #1- Highway Interchange #1 at I-71 & Snow Road	Page 104
-Example #2- Highway Interchange #3 at I-480 & Tiedeman Road	Page 105
-Ex.#3-Highway-Median and Interchange #6 at I-71 & Denison Access	Page 106

9. Tools for Watershed Stewardship: Practices & Strategies	Page 109
Identifying Conservation Areas & Incorporating Better Site Design Practices	Page 110
A. Tools & Practices #1: Adopt Critical Watershed Feature Map into Comprehensive Plan for Community Guidance	Page 112
B. Tools & Practices #2: Conserve Streams & Riparian Areas	Page 115
C. Tools & Practices #3: Conserve Wetlands & Setbacks	Page 119
D. Tools & Practices #4: Conserve Flooplains	Page 123
E. Tools & Practices #5: Avoid Steep Slopes	Page 126
F. Tools & Practices #6: Use Low Impact Development	Page 130
G. Tools & Practices #7: Use Conservation Development	Page 134
H. Tools & Practices #8: Woodland/Tree Canopy Protection	Page 138
10. CONCLUSION – Continued Support	Page 143
- Key Recommendations / Next Steps	
- Short Term	
- Long Term
